

Friends of
Bassett Healthcare
Network

2017 Annual Report

Message from the President of the Friends of Bassett Healthcare Network

At the Friends of Bassett, we raise money for a group of hospitals and health care centers that serve a large region covering 5,600 square miles. Each of those miles contains patients who need attention and care—specific, particular care—that our doctors, nurses, and physician assistants provide every day at our many community health centers, hospitals, and emergency rooms.

Here in rural central New York, we live in small communities, and we value the relationships that we build in our communities. We share our triumphs and our trials. Bassett's superlative medical care grew out of these small communities and networks of neighborly care, the spirit of

which is preserved in its community giving today.

Here are a few examples of good things that donors like you made happen in 2017:

- Donations to the recreational relief fund helped families of patients with cancer enjoy something fun together that took their mind off the disease for awhile;
- Gifts to pet therapy brought visits from trained dogs and their owners to patients in the hospital, relieving stress, lowering blood pressure, and raising spirits;
- Gifts to the ROPS program, a project of Bassett's New York Center for Agricultural Medicine and Health (NYCAMH) helped farmers install life-saving safety structures on their tractors, greatly reducing the chance of a rollover death;
- A group of dedicated volunteers known as the Cherry Valley Fry Crew gifted proceeds of all sales from a three-day event to patients with cancer;
- Proceeds from another large event, The Big Squeeze at the Fly Creek Cider Mill, were dedicated to Bassett's mobile cancer-screening coach;
- And children in Oxford held a series of bake sales so they could donate their earnings to support the Hannah Lee House, a home away from home where patients' families can stay when loved ones are receiving treatment.

These are just a few examples of how generous people in our communities work together to help each other—and to help people they don't even know. We live in a place where great people create partnerships that produce great medicine. Thank you for participating!

Jason Tabor
President, Friends of Bassett Healthcare Network

Your generosity makes a difference every day

Each donation to the coach was a life-sustaining gift.

Mobile Cancer-Screening Coach

More than 30,000 people in New York die from cancer each year, according to the American Cancer Society. The best way to prevent these deaths is to detect cancer early so that it can be treated effectively.

Early detection is a key to survival for many people diagnosed with cancer, because it gives patients more treatment options to choose from.

But many patients wait too long for screenings, seeking medical help only when symptoms appear. Some are fearful; others lack adequate transportation. Bassett designed its mobile cancer-screening coach to solve this problem. It brings cancer-

screening medical care to patients where they live.

Providers on Bassett's mobile coach have administered more than 11,000 mammograms and 1,500 Pap and pelvic exams to women who otherwise would not have received these important cancer screenings. These screenings resulted in 45 cases of cancer being detected early.

Donor gifts put a new mobile cancer-screening coach on the road this year, outfitted with advanced 3D imaging equipment and electronically connected to each patient's medical record. Each donation to the coach was a life-sustaining gift.

Thank you for your gifts

Your Gifts Helped Children Receive Essential Services

Generous gifts from donors helped Bassett's 20 school-based health centers to serve more than 7,600 children last year. These young people made more than 33,000 visits to providers in these centers, which are overseen by Bassett's department of pediatrics but are conveniently located right where the children go to school.

For many of these children, the school-based health center is the only source of primary medical care, dental care, and mental health care. Nearly half of the children served by Bassett's school-based health centers qualify for free or reduced lunches at school, and one in five children who receives care at one of

Bassett's school-based health centers lives in a home with income below the federal poverty line.

Donor support of Bassett's school-based health program makes a tremendous difference in the lives of these children and helps our local communities to thrive.

For many children, the school-based health center is the only source of primary medical care, dental care, and mental health care.

Your Gifts Helped Dialysis Patients

The new chairs purchased with donor funds make treatment easier for both patients and caregivers.

Gifts from generous donors brought 14 new chairs to Bassett's dialysis center in Cooperstown. This center is full to capacity most days with patients who depend on its services for survival. Patients who need dialysis must visit the

center three days a week for several hours, each week, all year.

To receive dialysis, a patient must sit in a special chair for several hours.

The new chairs purchased with donor funds make treatment easier for both patients and caregivers.

The chairs are comfortable and have multiple moving parts that facilitate treatment. Swing-out arms ease transfers for patients whose mobility is compromised. Adjustable head and foot rests help to make treatments less difficult.

Thank you for your gifts

Your support saves lives on the farm

Your Gifts Made Farms Safer Places to Work and Live

Agriculture is one of the most dangerous occupations in the nation, according to the National Institute of Occupational Health and Safety. Farmers work in a high-risk environment, and so do their families, since farming is often a family business. Every day they face hazards from raising animals, moving feed and manure in difficult weather, and handling heavy equipment. A single tractor rollover can kill a farm worker and put a farm out of business.

The New York Center for Agricultural Medicine and Health is dedicated to reducing these dangers by helping farmers to

implement safety programs and by enabling them to install rollover protective structures, or ROPS, on their tractors.

Gifts from donors to the John May Farm Safety Fund and the ROPS program helped Bassett to make local farms safer. Tractor rollovers are the number one cause of fatalities on American farms, and installing a simple rollover protective structure on a tractor is 99 percent effective in preventing deaths during rollovers, if tractor drivers wear a seatbelt.

Your generosity enabled Bassett to make local farms safer places to work and live.

Your generosity enabled Bassett to make local farms safer places to work and live.

Thank you for your gifts

Patron Society

The Patron Society recognizes leadership donors who made annual gifts of \$25,000 or more during 2017 to the Friends of Bassett.

The Cupola Society

The Cupola Society was formed in 1992 to honor donors who make bequests and lifetime gifts to any entity within the Bassett Healthcare Network. These legacy gifts, whether made through provisions in estate plans or through such planned-giving vehicles as annuities and trusts, have a lasting impact on our community by supporting the Network's mission to provide quality care throughout our region.

We invite you to become a member of the Cupola Society, created exclusively to honor and recognize people who have helped to support the Bassett Healthcare Network through a planned gift in their wills, trusts, wealth-management, or estate plans. For more information, contact Joanne Tobey at Joanne.Tobey@bassett.org or call (607) 547-3928. You may also visit our web site, www.friendsofbassett.org, for more information and tools to assist you with your estate planning.

By the Numbers: the Impact of Your Gifts

What Your Gifts Support

In 2017, gifts to the Friends of Bassett totaled \$4.1 million. Some donations supported specific programs in the network, such as school-based health, cancer care, and the New York Center for Agricultural Medicine and Health, but much was unrestricted, so each hospital and program could use donated funds where they were most needed.

Unrestricted and Restricted Giving by Subsidiary

Friends of Bassett Healthcare Network Board of Directors & Staff
