

Friends of
Bassett Healthcare
Network

2018 Annual Report

Message from the President of the Friends of Bassett Healthcare Network

Access to quality health care is as important today as it has been in the past, and Bassett Healthcare Network strives to respond to the challenges of providing a high level of care. You have helped Bassett meet these challenges head-on and enabled the organization to enhance the experience for all patients, which invigorates the work environment for employees and creates a healthier community at large.

Here are some examples of the impact your gifts made in 2018:

- At O'Connor Hospital, contributions supported the addition of new patient-monitoring systems. These systems increase efficiency, allow nurses to spend more time with patients, and help providers quickly identify

which patients need immediate intervention. "Smart Beds" are now connected to electronic medical record (EMR) networks and send patient data directly to nurses and enhance patient safety.

- Digital enhancements at Fox Hospital in Oneonta were made possible with Friends of Bassett support. Conversion to digital X-ray machines enables immediate processing of digital X-rays, and significantly reduces patient exposure to radiation compared to conventional X-rays.
- Funding enabled Little Falls Hospital to proceed with the development of a new primary care center in Dolgeville. The current facility will be replaced with a state-of-the-art medical office building designed to

accommodate four practitioners. It will feature eight exam rooms, offices, a laboratory, and ancillary spaces earmarked for community health and wellness-related purposes.

- Continued support helped underwrite Bassett's school-based health dental program, which provides critically needed oral health exams, digital dental radiographs (X-rays) and restorative treatments for enrolled students. In 2018, Leah Carpenter, D.M.D., chief of Bassett's department of dental services, and a dental hygienist completed more than 15,000 procedures in 2,775 dental visits.

These are just a few examples of how contributions to the Friends help Bassett Healthcare Network

improve patient care. When our neighbors, friends, and family are not feeling their best, or when we feel vulnerable due to our own health challenges, it is comforting to know that donors like you make these experiences better through your generosity to the Friends of Bassett. I cannot say the following words enough, "Thank you, thank you, thank you, thank you!"

A handwritten signature in blue ink that reads "Jason Tabor". The signature is fluid and cursive.

Jason Tabor
President, Friends of Bassett
Healthcare Network

Caring for communities, thanks to you

Your gifts make a difference. Your generosity has helped to bring new technology, training, and innovative care to communities across central New York. Because you gave in 2018, good things are happening.

Your gifts brought new technology to O'Connor Hospital

Philanthropy brought advanced technology to O'Connor Hospital in the form of "smart beds" and a new patient-monitoring system that will give clinicians up-to-the-minute information and help them to save more lives. The project received a huge boost from local entrepreneurs Joyce and David Barber, whose lead gift inspired others to contribute and make the new technology possible.

The smart beds bring more comfort to patients and an alert system to providers. The patient-monitoring system provides constant assessment of heart and respiratory

rates more than one hundred times per minute.

A small monitoring box worn by the patient interfaces with equipment nearby to increase the efficiency and frequency of messages arriving at nurses' station, thereby allowing care teams to quickly recognize when patients need intervention. With data being fed to clinicians so frequently, time-sensitive insights from the technology that would not be apparent otherwise are reducing mortality rates, decreasing length of hospital stays, and improving patient experiences.

...time-sensitive insights from the technology that would not be apparent otherwise are reducing mortality rates, decreasing length of hospital stays, and improving patient experiences.

Thank you for your gifts

Your gifts are building a new primary-care clinic in Dolgeville

The generosity of the community is helping to lay the foundation for a new primary-care clinic in Dolgeville. Little Falls Hospital anticipates ground-breaking in 2019 for a new facility that includes a one-story 5,000-square-foot medical office building able to accommodate four practitioners. The new space will feature eight exams rooms, offices, a laboratory, and other related spaces. Also included in the design is a 2,000-square-foot addition

for the purpose of providing space for community health- and wellness-related purposes, such as wellness education and lifestyle-related classes. Major support came from a grant from the F. M. Kirby Foundation, with gifts from the Community Foundation of Herkimer and Oneida Counties and many community members helping to bring compassionate care in a quality environment to residents of the Mohawk Valley.

A new primary-care clinic is planned for Dolgeville.

Your generosity helped give children a brighter future

Being able to read and being exposed to the vocabulary in books has an impact on children's health and their futures. Children who are not exposed to books at home will have more limited vocabularies than those who were raised in a print-rich environment, which puts them at risk of social

and educational challenges. Thanks to the generosity of donors like you, Bassett's Reach Out and Read program enables pediatricians to give the parents of each child from age six months to five years a new book every time the child comes for a well-child visit and to guide parents in

the importance of reading aloud to promote cognitive development. Bassett's pediatric clinics give away about 7,000 books to children each year, each book made possible by the generosity of a Friends of Bassett supporter, and each book giving a child a leg up on success in school and in life.

Bassett's pediatric clinics give away about 7,000 books to children each year, each book made possible by the generosity of a Friends of Bassett supporters.

Thank you for your gifts

Your generosity brought digital X-ray technology to Fox Hospital

Generous donors have brought A. O. Fox Hospital closer to its goal of converting all its radiology equipment from conventional technology to digital machines. The benefits of the conversion are less exposure to radiation for patients and immediate access to images for doctors. In addition, the equipment needed to produce digital images is less costly to operate, as it requires no film, no

development chemicals, and no dark room. Images produced digitally can be stored more efficiently, too—on a hard drive rather than taking up physical space. And digital X-rays produce less waste and use less toxic chemicals than conventional X-rays, making the conversion to digital technology beneficial to the entire community.

A mobile digital X-ray unit at Fox Hospital was made possible by the generosity of community members.

Your gifts are helping to turn the tide on opioid addiction

According to the Centers for Disease Control and Prevention, 115 Americans die on average every day from an opioid overdose. Bassett's opioid-addiction program is helping more than 700 patients from around central New York address their addiction through a combination of

medication-assisted treatment (MAT), counseling, and comprehensive primary care to address other health issues. Philanthropy has helped to support the program, which was piloted at Cobleskill Regional Hospital. The program is now being held up as a model for other

health systems around the state and has earned Bassett the Healthcare Association of New York State's 2018 Pinnacle Award for Quality and Patient Safety. The award recognizes organizations that are playing a leading role in promoting improvements in health care delivery in New York State.

Thank you for your gifts

Patron Society

The Patron Society recognizes leadership donors who made annual gifts of \$25,000 or more during 2018 to the Friends of Bassett.

The Cupola Society

The Cupola Society was formed in 1992 to honor donors who make bequests and lifetime gifts to any entity within the Bassett Healthcare Network. These legacy gifts, whether made through provisions in estate plans or through such planned-giving vehicles as annuities and trusts, have a lasting impact on our community by supporting the Network's mission to provide quality care throughout our region.

We invite you to become a member of the Cupola Society, created exclusively to honor and recognize people who have helped to support the Bassett Healthcare Network through a planned gift in their wills, trusts, wealth-management, or estate plans. For more information, contact Joanne Tobey at Joanne.Tobey@bassett.org or call (607) 547-3928. You may also visit our web site, www.friendsofbassett.org, for more information and tools to assist you with your estate planning.

By the Numbers: the Impact of Your Gifts

What Your Gifts Support

In 2018, gifts to the Friends of Bassett totaled nearly \$4 million. Some donations supported specific programs in the network, such as school-based health, cancer care, and the New York Center for Agricultural Medicine and Health, but much was unrestricted, so each hospital and program could use donated funds where they were most needed.

Unrestricted and Restricted Giving by Subsidiary

Friends of Bassett Healthcare Network Board of Directors & Staff
